

EuCheMS

European Association for Chemical and Molecular Sciences

Umbrella organization

- of 50 national chemical societies in 35 European countries
- with membership of about 150 000 individual chemists
- with registered secretariat in Brussels

EuCheMS Newsletter regularly distributed by member societies

Goals:

providing a single voice for chemistry in Europe

representing chemical and molecular sciences in Europe

EuCheMS is structured with thematic **Divisions** including ...

DAC

Division of Analytical Chemistry

- DAC is a network of chemical societies and their members working in all fields of analytical sciences
- DAC gives a voice to the interdisciplinary field of analytical sciences
- DAC is based in Europe and aims at close links to related institutions all over the world

Membership:

- EuCheMS member societies are represented in DAC by a 'Delegate'
- non-European societies and international bodies by an 'Observer'

...for aims, statutes, structure, activities visit www.dac-euchems.org

DAC current working structure

Study Group "Education"

e.g. partner in the development of "Eurobachelor" scheme

Study Group "History"

e.g. reviews on chemistry in countries hosting EUROANALYSIS

Study Group "Bioanalytics"

e.g. safeguarding contacts to analysis in biological disciplines

Study Group "European Analytical Chemistry on the Web"

e.g. website directory of analytical institutions in Europe

Study Group "Quality Assurance"

e.g. cooperation with EURACHEM

Task Forces deal with ad-hoc matters

... for details and reports visit www.dac-euchems.org

DAC Conferences

EUROANALYSIS

Europe's broad spectrum conference on analytical chemistry

held every second year, rotates between all European countries

9-14 Sep 2007 Antwerp

6-10 Sep 2009 Innsbruck

Features:

- > Overview, workshops and thematic sessions
- > DAC Robert Kellner Lecture; Heinrich-Emanuel-Merck Award
- > Short Courses

Conferences "organized in cooperation with DAC"

designation indicates

- > high quality
- > international participation
